3-WEEK SUMMER SCHOOL FOR BACHELOR STUDENTS

TAKE A DEEP DIVE INTO SUSTAINABILITY

In our three-week summer school, we invite students to take a deep dive into the topic of Sustainability. Throughout the event, you will examine Sustainability from different angles with the help of interactive lectures, case studies, group work and exciting excursions. In addition, you will meet students from around the world and have the chance to network.

WHO IS IT FOR?

The 3-week summer school targets interested second- and third-year bachelor students with business, economics, business informatics and business engineering backgrounds.
