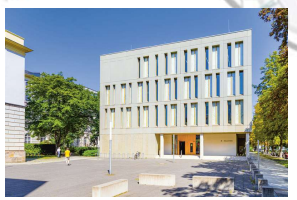
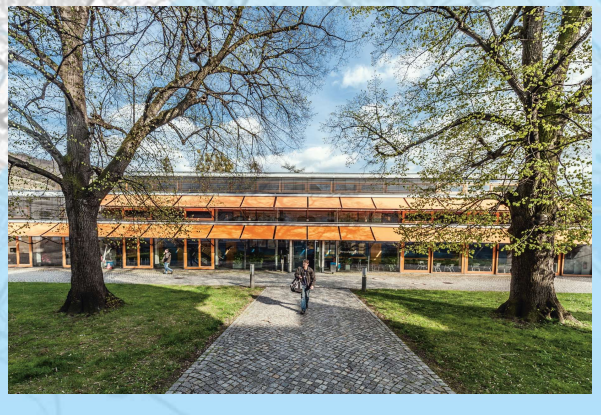
	Monthly flat rate starting on the 23rd day (euros)	**Daily flat rate** Total stay up to 22 days (euros)	**Daily flat rate** in the last, incomplete month of a stay lasting several months (euros)
Students	992	45	33
Doctoral candidates	1.300	58	43
Postdoctoral researchers, experienced scientists, university lecturers and senior university staff	2.000	89	66

Two Locations

Campus Dresden City



Campus Pillnitz



More than 40 Study Programmes in 8 Faculties

- Civil Engineering
- Electrical Engineering
- Agriculture/Environment/Chemistry
- Informatics/Mathematics
- Spatial Information
- Mechanical Engineering
- Business Administration
- Design

Profile Areas at HTWD

Protection of natural resources

- Analysis of our natural habitat
- Development of innovations and technologies to optimise land use and circular economy
- Resource-efficent, sustainable and environmentally friendly value creation

Developing future-oriented mobility and infrastructure

- Developing future-oriented mobility concepts
- Use of low emission drive systems
- Energy storage, distribution and conversion
- Construction and building operation using sustainable technologies

Shaping, networking and digitalising the economy and work

- Automation and digital transformation of future working environments
- Human-machine interaction
- Connecting communication, production and information processes
- Business-management considerations
